

**Daniel Dancer fact!**

Detective Bill has been very busy discovering some stories about the people of Harrow and Headstone Manor.

One very interesting person who lived in Harrow was a man called Daniel Dancer.

He was born in 1716. Daniel did not like to spend money; he would even do things like have a bath in puddles to save on spending!

When he died in 1796, £2500 was found in a heap of dung! That's like having nearly £300 000 hidden somewhere in your house today! Did you find any pennies in your house when you played Detective Bills indoor Bingo?

Try taking a rubbing of some different coins. Look at all the different designs and see how they are different on each side. Can you make a pattern?
