

How to Make a Simple Nature Crown

You will need:

- * Strips of card to go around your head
- * Double sided sticky tape or glue and a stapler
- * Natural items to cover the crown.

1. Take the strip of card and measure how long it needs to be to go around your head.
2. Using double sided sticky tape or glue attach different flowers, grasses, leaves and sticks to your crown.
3. Remember to think about the style of crown you would like to create. Will you be a flower fairy king or queen or a woodland warrior?
4. Once your crown is decorated, put it around your head again, ensuring the fit is correct and secure it with a stapler or more tape.
5. Put your crown proudly on your head.
6. Could you get a family member to introduce you to your subjects?
7. Have fun!
